An Update on Falun Dafa Worldwide

VOLUME 2 ISSUE 50 DECEMBER 26, 2007

Six-year-old Pengpeng Longs to Be with Both His Parents

(Clearwisdom.net) Little Pengpeng is six years old and currently in the first grade. He used to live with his dad, Sun Jinghuan and his mother, Yi Luju, in Dalian City, Liaoning Province. However, his parents were illegally arrested by the CCP (Chinese Communist Party) police many times because they refused to give up practicing Falun Gong.

Pengpeng's greatest wish is to be with his parents forever and for his parents to not be taken away again by the police.

Pengpeng and his parents

Pengpeng did not get to see his father until he was three years old. One month before he was born, Pengpeng's father was arrested by the police. When he was a baby, he and his mom moved to another city to avoid the police. When Pengpeng was three years old, his father returned home. Ever since his father returned, the quiet Pengpeng started to speak and laugh more. Later on, his grandmother also came to live with them. The family of four was happy every day. However, the family was soon torn apart again.

This year Pengpeng did not see his mother for a long time. His father told him that his mother was arrested and taken to a brainwashing center because she wrote a letter to the police saying that Falun Gong is good. A few days later, Pengpeng finally got to see his mom. Not long after that, however, the police took his father away for the second time. On the morning of November 16, his father was taking Pengpeng to school when three policemen stopped him. He tried very hard to comfort Pengpeng, who was wailing at the scene. Eventually the police took his father away. Pengpeng was taken home by some kindhearted passersby. When his mother opened the door, Pengpeng told her in tears, "The police took Daddy away!"

Pengpeng's mother is very strong-minded. She wanted to go to the police station to ask for his father's release. She asked Pengpeng what he thought about this. Pengpeng asked his mother to fulfill his wish, "Ask everyone you meet to please help our family. Kind people will receive good rewards."

Introduction to Falun Dafa

Falun Dafa, also known as Falun Gong, is a practice for benefiting physical health and elevating the mind. Introduced by Mr. Li Hongzhi in China, the practice consists of five gentle exercises including meditation, and diligent effort on the part of practitioners to follow the universal principles of Truthfulness-Compassion-Forbearance in daily life. Falun Gong is not only beneficial to one's own health and well-being, it also benefits others. Although the practice originated in China, today it is practiced throughout the world by people of all races and walks of life. In the face of the most brutal and vicious persecution perpetrated on them by the Chinese Communist Party, Falun Gong practitioners have found the spiritual strength to resist peacefully and tirelessly by upholding the principles of Truthfulness-Compassion-Forbearance.

Falun Gong Introduced in Remote Schools in India

SRI K.V. English School is over one hundred kilometers away from Bangalore. There are eight hundred students enrolled at the beautifully landscaped school situated in a scenic area of India.

Students in SRI K.V. English School learn to practice the first set of Falun Gong exercises.

The school principal told us that all the teachers and students had learned the Falun Gong exercises in three weeks. After practicing Falun Gong for a while, they felt very good and wanted to keep up the practice. During our visit, many of the teachers and students gathered outside for group practice so we could see how they were doing and help them with the exercise movements.

After a teacher called the students to the playground, visiting practitioners from Taiwan and Malaysia demonstrated the exercises on a stage while some of them corrected the hand gestures of the students. The children followed along with the exercise music. Their movements were in unison and looked very good.

The principal said that the practice was very worthwhile and he encouraged all teachers and students to learn Falun Gong. Sometimes, the whole school meets for group practice.

UK: London Falun Gong Practitioners Participate in World Human Rights Day

(Clearwisdom.net) December 10, 2007 was the 59th annual World Human Rights Day. Falun Gong practitioners gathered in front of the Chinese Embassy in London to hold a peaceful protest and candlelight vigil in the evening. The gathering of Falun Gong practitioners sent a clear message: "Immediately stop the persecution of Falun Gong."

In the cold evening wind, the practitioners lit candles. Some practitioners sat silently in front of the Chinese Embassy to commemorate the more than 3,000 Falun Gong practitioners who lost their lives in the brutal persecution by the Chinese Communist regime over the past eight years. Practitioners displayed banners that read, "Falun Gong, a peaceful meditation group – Falun Gong is being persecuted in China," "The Chinese Communist regime's persecution of Falun Gong has continued for more than eight years," and, "Stop the genocide against Falun Gong." Many pedestrians and drivers passing by the Embassy took flyers exposing the persecution in China.
