World Organization to Investigate the Persecution of Falun Gong Publishes Case Report of Conversation with Witness to Organ Harvesting

(Clearwisdom.net) *The World Organization to Investigate the Persecution of Falun Gong (WOIPFG) is dedicated to exposing the persecution of Falun Gong in China and to bringing the responsible individuals to justice. Recently, one of the organization's investigators had a revealing conversation with a witness to organ harvesting from living Falun Gong practitioners imprisoned by the Chinese Communist regime.*

WOIPFG Case Report: Witness to a killing during organ harvesting of a living Falun Gong practitioner

December 12, 2009

A special WOIPFG investigator carried on a conversation lasting almost 30 minutes with a person in China ("witness"), who revealed a case of organ harvesting of a living Falun Gong practitioner. The surgery in question took place several years ago. The name of the witness is withheld out of concern for his safety. With the consent of the witness, the entire conversation was taped.

Reenactment of the Chinese Communist Party's live organ harvesting of incarcerated Falun Gong practitioners.

In 2002, the witness was working for the public security system of Liaoning Province, where he participated in illegal arrests and torture of Falun Gong practitioners. Among them was a female Falun Gong practitioner in her 30s. The witness said that she had wounds and scars covering her entire body after one week of severe torture and abuse, including forced food intake. On April 9, 2002, a certain office of the Public Security Bureau of Liaoning Province sent two military surgeons, one a surgeon from the General Hospital of the Shenyang Military Region of the People's Liberation Army and the other a military surgeon graduated from the Second Military Medical University. They transferred this practitioner to another location. Under the circumstances that the practitioner was fully conscious, without using any anesthetics, they harvested her heart, kidneys and other organs. The witness, an armed police guard, saw the entire process of live organ harvesting.

Introduction to Falun Dafa

Falun Dafa, also known as Falun Gong, is a practice for benefiting physical health and elevating the mind. Introduced by Mr. Li Hongzhi in China, the practice consists of five gentle exercises including meditation, and diligent effort on the part of practitioners to follow the universal principles of Truthfulness-Compassion-Forbearance in daily life. Falun Gong is not only beneficial to one's own health and well-being, it also benefits others. Although the practice originated in China, today it is practiced throughout the world by people of all races and walks of life. In the face of the most brutal and vicious persecution perpetrated on them by the Chinese Communist Party, Falun Gong practitioners have found the spiritual strength to resist peacefully and tirelessly by upholding the principles of Truthfulness-Compassion-Forbearance.

Falun Dafa Practice Cures Mother, Son, and Daughter of Hepatitis B

(Clearwisdom.net) I am a village woman from Hebei Province. I don't know when or how I contracted hepatitis B, or even more unfortunately, how our son and daughter also became infected. To avoid passing the disease to other people, my husband and I quit our jobs, and started raising some cows and goats to support our family. Our income wasn't really enough to cover our living and medical expenses, and as our children were growing up, our family's situation became tougher and tougher.

A relative of mine who is a Falun Gong practitioner heard about our plight and brought us the book *Zhuan Falun* (the principal teachings of Falun Gong). We read the book whenever we could, and silently recited "Falun Dafa is good," and, "Truthfulness-Compassion-Forbearance is good." After a period of time, I felt physically stronger, and wasn't tired after working all day.

I went with our children to the hospital for a check-up. The results turned out to be good, and the hepatitis B was no longer detectable. Everyone knows that hepatitis B is incurable; Falun Dafa displayed its miraculous power in our family!

Argentine Judge Orders Arrest of Top Chinese Communist Party Officials for Crimes Against Humanity

(FDI - Falun Dafa Information Center) In a landmark decision, an Argentine judge indicted and ordered the local Interpol department to seek the arrest of two high-ranking Chinese Communist Party (CCP) officials on Thursday for their role in crimes against humanity committed against Falun Gong practitioners. The ruling follows a similar decision in Spain last month, when the Spanish National Court indicted five top CCP leaders for their involvement in genocide and torture against Falun Gong.

The two defendants in the Argentina case are former CCP head Jiang Zemin, widely acknowledged as the chief instigator of the campaign to "eradicate" the spiritual practice; and Luo Gan, a former Politburo member who oversaw the 610 Office, an extralegal security agency that has led the violent campaign.

Following a four-year long investigation, Argentine judge Octavio Araoz de Lamadrid of Federal Court No. 9 issued a 142-page decision and related orders on December 17. The document offers a detailed and damning assessment of the CCP's persecution of Falun Gong practitioners in China and the role that the two top officials played.

"The genocidal strategy ... comprised a broad range of actions arranged in total contempt for life and human dignity," says Lamadrid's decision. "The designated purpose - the eradication of Falun Gong - was used to justify any means used. Therefore, torment, torture, disappearances, deaths, brainwashing, psychological torture were everyday occurrences in the persecution of its practitioners."

The judge concludes the decision by issuing a national and international order to capture the pair to be carried out by the Interpol Department of the Federal Police of Argentina. As such, should the accused former officials travel to other countries that have extradition treaties with Argentina, they will ostensibly face being detained and transferred to Argentina to be brought before a court.
